QMATIC

Qmatic Branch Hub Basic

Branch Hub Basic is a silent and compact computer appliance built on an ARM platform, using Linux for maximum security.

Branch Hub Basic is easy to set up and configure, using a GUI you access from a browser.

When using Qmatic equipment on a Qmatic 1745 network, the Branch Hub Basic has a built in 1745 socket, no special interface is required. Just connect the 1745 cable straight to Branch Hub Basic.

Features

- Supports Orchestra R4 and later
- Easy to set up and configure
- Built for 24/7 usage
- Low power and silent
- Small in size

With the Branch Hub Basic you can

- In a safe way, manage all the communication needs between the Qmatic equipment at a branch (such as printers, keypads and displays) and the Qmatic Orchestra central server

Used with	Qmatic Orchestra R4 and later
